

D23 DAYS of CHRISTMAS

Mickey's Christmas Matching Game

What you will need:

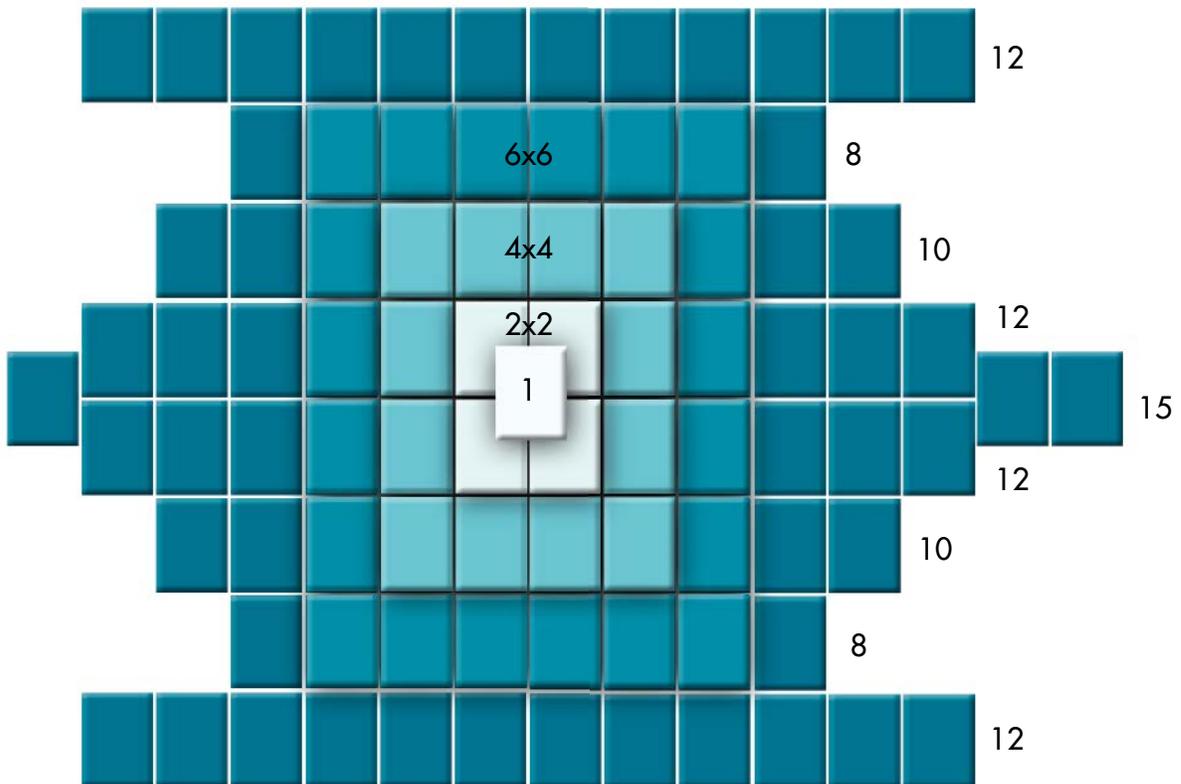

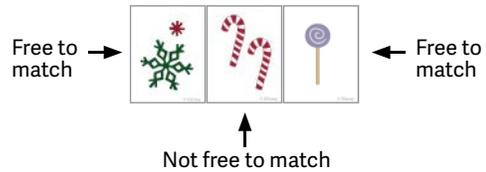

- Regular printer paper
- Four (4) 8.5" x 11" foam craft board
- Glue stick
- Straight edge for cutting
- Cutting surface
- Craft knife
- 1 minute timer

How to Make the Cards

Print onto regular paper and apply glue to the backs to adhere the printed cards onto the foam craft board. On a proper cutting surface, use the straight edge to cut along the solid lines to separate the cards. Kids, have a grown-up help you with the craft knife and cutting.

How to Play the Game

Place all 144 cards face up on a flat surface. Mix them up for a couple of minutes. Everyone can join in! Once thoroughly mixed, arrange and stack the cards to match the below diagram. Each player will have a 1-minute turn to match as many pairs as possible. Cards are free to match if either the left or right side of the card is open. If not, the card is not available to match. The game is finished when no more moves are available or the cards are all gone! Unless otherwise indicated, each card is worth one (1) point. Each player adds up their points to determine the winner.
